HYBRID TECHNOLOGY

Solar heating + hot water tank

The DADA line not only includes FORMIDRA solar technology but also a hot water inlet from the main supply of the house. This way, you benefit not only from 100% solar hot water, but also from hot water drawn from the domestic supply when necessary.

The image features a sleek, blue outdoor shower with a curved, modern design. It has a large, circular showerhead at the top and two control knobs on the side. The shower is positioned on a light-colored patio next to a swimming pool. In the background, there are palm trees and a clear blue sky, suggesting a tropical or resort setting. The overall aesthetic is clean and contemporary.
