

DUAL HEALTHY INFRARED TECHNOLOGY

At Holl's, we think that a sauna should be as fully equipped as possible. We have provided all our infrared cabins with Dual Healthy technology. So the user has the choice of Full Spectrum Quartz or Magnesium technology just by pressing one button.

Holl's PureWave
Infrared at its best

PRESTIGE RANGE

With your wellness in mind, HOLL'S has researched the latest trends to bring you the best technologies in this field.
Our product lines of infrared saunas are all equipped with the latest Full Spectrum 'Dual Healthy' technology, combining quartz and magnesium for a maximum of benefits. Our saunas are also made of the highest quality woods such as red cedar or spruce, from sustainably managed forests.

With our traditional and infrared hybrid saunas, you can offer products that are fully equipped.
With HOLL'S you can distribute a complete range of traditional and infrared products for use inside and outside, for 2 to 6 persons.

ELEGANT
DESIGN

Behind its wide glazed surfaces decorated with elegant louvred shutters, you will enjoy all the benefits of a luxury steam sauna.

Its Canadian spruce wood construction alone evokes relaxation and well-being. INSIDE, the two-tier benches similar to those in traditional Finnish saunas make it possible to enjoy different temperature levels (for the 3/4 and 4/5 person models).

Designed exclusively with splendid finishes, the Venetian cabin is also fully equipped for you to enjoy a luxury steam sauna session.

LIMITED MOBILITY

TREE SPECIES
RED CEDAR
& **ABACHI WOOD**

Because a sauna's benefits should be accessible to everyone, Holl's has designed a model that is ideal for persons with limited mobility. By using both the Full Spectrum + Magnesium Infrared technology and the steam stove, the Combi Access is equipped with a double sliding door and has a large 1.50m diameter open area to easily move around in. Access to the bench is facilitated by its two lateral grab handles and two other folding handles in the centre of the seating. And to maximise enjoyment of your session, make use of the frontal emitters.

ECCOLO

MINIMUM CONSUMPTION,
MAXIMUM COMFORT

DOUBLE BENCH
COMFORT

OPTIMISED
INSULATION

CHROMOTHERAPY
LED

All parameters have been studied to ensure the sauna conserves energy. Its walls are insulated and the space beneath the benches is enclosed for optimum insulation. Door opening and closing have been designed to avoid any heat loss.

For a substantial number of bathers (6 persons), such a sauna normally requires an 8kW stove connected to a 380v socket. With our excellent insulation, a simple 4.5kW stove, such as is found in a sauna for 3 persons, will suffice.

This economical sauna reaches optimum temperature when connected to a conventional 20A 230 volt socket.
