BASTA is jointly owned by IVL – the Swedish Environmental Research Institute, and the Swedish Construction Federation. BASTA provides a database where suppliers can register building- and construction products that meet BASTA's stringent chemical composition criteria. The purpose of BASTA is to contribute to the phasing out substances of concern from building- and construction products.

For further information please visit BASTA's website: [www.bastaonline.se](http://www.bastaonline.se)

Yours Sincerely,

Paulina Rode-Kemlo
